CONSENT TO TOUCH

Restore HER Wellness Spa Practitioners are holistic wellness providers and have been trained to use light touch during the abdominal stimulation, clay wrap and/or breast wrap detox. We are NOT certified massage therapists. We are trained and certified to stimulate the womb, ovaries and fallopian tubes with an abdominal stimulation increasing the circulation of blood and oxygen to these organs and the entire reproductive system as well around the breast to improve lymphatic circulation. During this stimulation, the practitioner will not touch lower than your pubic symphysis joint (the area in which your pelvic bones meet.) We do not provide invasive touch and we do NOT massage the vagina. We provide non-invasive abdominal stimulation for womb health and benefits.

Restore HER Wellness Spa Practitioners provide holistic services concerning the health of the client via meditation, herbs, nutrition, sacred movement, crystal healing and trauma release. Additional services may include oil application, womb detox, clay wrap, and emotional support, transferring of healing energy during Reiki sessions, crystal healing, and release work.

The womb/abdominal stimulation is not a replacement for care from your primary health care provider. We do not claim to prescribe, treat, cure or diagnose illness. Our holistic wellness services provide healing arts to all our clients that assist you (the client) in awakening the self-healing powers within your body. If you agree to receive this Womb/Abdominal Stimulation and Yoni (Vaginal) Steam or any other services rendered involving light touch provided by a certified Restore HER Wellness Spa Holistic Health, and Yoni Steam Practitioner please sign below.

I _____ have read and understand the above information from Restore HER Wellness Spa and agree to receive healing touch.
